## Digital Scanning Services

We offer scanning services for web, books and small or large format prints. You may choose for us to do all the work for you or you may choose to do some of the work yourself. Our scanners include the Imacon Flextight, the Scitex Pro and multiple Epson Scanners.

**RAW SCANS:** Have us do the scanning and you do the cleanup and post editing at home. The high quality resolution archival scan comes with basic color and density adjustments made during the scan process and is supplied on a CD or DVD.

**MASTER SCANS:** To obtain the best quality from your high resolution archival scan. This gives you a ready for print file from your negative transparency or artwork. We do the color and density corrections and corrected to our color managed Lacie Monitor and each image is dust free supplied on a CD or DVD.

### CUSTOM SCANS
